Course description

Qualification Master of Science

Field of study Agriculture and environment

Course summary This interdisciplinary programme focuses on the utilisation and conservation of water resources and the associated infrastructural, organizational and institutional arrangements.

Course description This interdisciplinary programme focuses on the utilisation and conservation of water resources and the associated infrastructural, organizational and institutional arrangements. The programme includes subjects on key biophysical and hydrological processes to determine the water availability in terms of quality and quantity as well as to quantify the uses and requirements of water by humans and the environment. In addition, the programme focuses on the legal, institutional, economic and other arrangements that regulate access, allocation, treatment, use and discharge of water.

Study subjects Foundation phase focusing on various disciplines involved in water management. Personal study profile selected by student based on relevant experience and career ambitions. Profiles can be fully tailor-made based on available contemporary courses or follow one of the thematic profiles (e.g. water resources, water services, water quality or water conflict). MSc research phase and thesis writing.

Course objectives The programme discusses key biophysical and hydrological processes to determine the water availability in terms of quality and quantity as well as to quantify the uses and requirements of water by humans and the environment. In addition, the programme focuses on the legal, institutional, economic and other arrangements that regulate access, allocation, treatment, use and discharge of water.

ECTS credits 106.00
 Duration 19 month(s)
 full-time
 Language of instruction English
 Instruction modes case study, excursion, lecture, research, workshop
 Accreditation -

About the institution

Department IHE Delft

Information about the institution
 IHE Delft Institute for Water Education is the largest international graduate water education facility in the world and the only institution in the UN system to confer accredited MSc degrees and promote PhDs. It offers degree programmes, short courses, online courses and tailor-made training. Since 1957 the Institute has provided graduate education to more than 15,000 water professionals from over 160 countries. More than 175 PhD candidates were promoted. IHE Delft is at the centre of a vast international network of water related institutions, and functions as an interface between knowledge networks and centres, public and private sector organizations, scientific and professional associations and other members of the international water community. The Institute runs a substantial number of joint MSc programmes implemented in partnership with universities around the globe. These joint programmes combine the strengths of the collaborating institutions and deliver either multiple degrees or a joint degree.

 full-time

Application deadlines

Start date	EU/EEA Students	Non-EU/EEA students
	17 Oct 2019	1 Aug 2019
Year	EU/EEA	Non-EU/EEA
	Institutional	
2019 (FT)	€ 21942	€ 21942
		n.a.

In short, the following rules apply:

- Tuition fees
- The "EU/EEA rate" is the regular fee for students from within the EU/EEA.
 - The "non-EU/EEA rate" is the rate for students from outside the EU/EEA.
 - The "institutional rate" is for all students who have already obtained a bachelor's or master's degree and who want to start a second programme leading to a degree at the same level or at a lower level.
 - Note that FT, PT and D stand for "full-time", "part-time" and "dual", respectively.

Make sure you contact your institution to find out what rate applies to you. The rates listed here are estimates.

Scholarships Orange Knowledge Programmes (OKP), World Bank, NFP, Rotary Foundation, StuNed Scholarship Programme, Netherlands Fellowship Programmes (NFP)
