Course description

Qualification Certificate

Field of study Health care, social services and care services

Course summary In this course, participants identify HIV and AIDS-related international agreements, conventions and financial mechanisms, and analyse how these influence national planning and implementation.

Course description What are the key issues in the good governance of HIV responses? How can one negotiate the complex political and financial terrain when planning these responses? How can a manager retain national agency and local priorities while negotiating with international actors and global responses? HIV is probably the most internationalized and politicized of all diseases and the response to it is equally politicized and influenced by international actors and actions. Health managers planning HIV responses need to be aware of these influences and of issues central to good governance, and should be prepared for managing a large and diverse global resource pool for HIV and AIDS. In this course, participants identify HIV and AIDS-related international agreements, conventions and financial mechanisms, and analyse how these influence national planning and implementation and vice versa. Participants analyse political and institutional structures and their implications for planning and managing the response. They will also examine the relationship between poverty reduction strategies, development processes and HIV and AIDS and translate these into HIV strategic planning processes. International conventions, declarations, aid architecture, donor alignment and harmonisation;

Study subjects	international and national human right and legal issues; HIV governance and accountability; MIPA principle and practice; policy review, policy pitch, Concept & guiding principles of mainstreaming; application of mainstreaming.
Course objectives	Apply relevant HIV & AIDS rights and development related international agreements, conventions in national development planning. About the institution

Department Royal Tropical Institute (KIT) ICHD module, crohocode 70047

Information about the institution
 KIT is a not-for-profit knowledge and expertise organisation for international and intercultural cooperation. Through master programmes, short courses and institutional support, KIT equips health professionals to be leaders in addressing public health challenges around the world. KIT has offered training programs on international public health since 1963. Currently this includes two International Masters Programs and a wide range of short courses and online courses. The courses respond to current global developments in the health field. KIT's courses are known for their practical applicability, the multidisciplinary approach and the interactive, participatory training methods. Courses at KIT are followed by health professionals from all over the world. KIT's Masters courses are given in cooperation with the Vrije Universiteit Amsterdam (VU) and are accredited the Dutch Flemish Accreditation Organisation (NVAO). In addition advanced courses are all accredited by TropEd, an international network of institutions for higher education in international health.

TOEFL paper based 5.5

Professional
experience
required -

Duration 15 day(s)
full-time

Application deadlines	Start date	EU/EEA Students	Non-EU/EEA students
	18 May 2020	18 Mar 2020	18 Mar 2020
	17 May 2021	17 Mar 2021	17 Mar 2021

Year	EU/EEA	Non-EU/EEA	Institutional
2020 (FT)	€ 2060	n.a.	n.a.

In short, the following rules apply:

- Tuition fees
- The "EU/EEA rate" is the regular fee for students from within the EU/EEA.
 - The "non-EU/EEA rate" is the rate for students from outside the EU/EEA.
 - The "institutional rate" is for all students who have already obtained a bachelor's or master's degree and who want to start a second programme leading to a degree at the same level or at a lower level.
 - Note that FT, PT and D stand for "full-time", "part-time" and "dual", respectively.

Make sure you contact your institution to find out what rate applies to you. The rates listed here are estimates.
