Course description

Qualification Bachelor of Laws

Field of study Law, public administration, public order and safety

Course summary All states have laws and their own legal system, and in most countries you can only study national law at the university level.

Course description Our LLB programme in International and European Law is specifically designed for students who wish to pursue a professional career in an international legal environment; it gives students an academic training in law without merely taking a national legal system as a starting point by offering students a general understanding of what 'law' is and how it functions. Official detailed information about the programme can be found here.
