Course description

Qualification Bachelor of Science

Field of study Health care, social services and care services

Course summary The education of physiotherapy is a broad education that leads to a professional both as health care worker, manager and developer of the profession.

Course description The education of physiotherapy is a broad education that leads to a professional both as health care worker, manager and developer of the profession. During the education you are taught in medical subjects as well as in the psycho-social area. You will be trained in both theoretical as well as in the practical field. Training is given in small groups according to case studies.

Study subjects The education teaches subjects in medical area: Anatomy, physiology, pathology, general and specific as well as specific physiotherapeutic: evaluation of the locomotor system, exercise therapy, massage en physio-technical applications. Besides that we train in the roles of manager and developer of the profession.

Course objectives Competences are named according to the three professional roles of the physiotherapist: care giver, manager and developer of the profession. The role as caregiver concerns the primary process. The main goal are the competences submitted to this role. The roles as manager and developer are at service of the primary process.

About the institution

Department School of Health

Saxion University of Applied Sciences is one of the larger institutions of higher education in the Netherlands, with over 23,000 students (and still growing!). Saxion University has a rich history - its roots can be traced back to the 1875. A merger of two educational institutions, the Hogeschool Enschede and Hogeschool IJsselmeer, in 1998 paved the way for Saxion University in its present form. This merger enabled Saxion to build further on its strong position in Dutch higher education and since then Saxion University has come to be recognised as an important centre of expertise at regional, national and international level. We are very proud of our diverse student body. Our international student population tops 2,500 students with a total of 55 different nationalities. Many of Saxion's full-time educational courses are already conducted in English, with more being added each year. Our 'international classrooms' are made up of a mix of students from all over the world. In this way we provide you with a truly multi-cultural experience in which you can compare experiences with and learn from fellow students of different backgrounds and nationalities.

Admission
