Course description

Qualification Certificate

Field of study Engineering

Course summary In spite of proaction and prevention efforts to prevent crisis and disasters, emergencies may still appear. In this semester, we discuss the core principles of emergency management.

Course description The semester risk and emergency management is divided into two parts (terms). The first term focuses on emergency management in the public sector, the second term on emergency management in the private sector. The first term includes courses on international crisis and emergency management, crisis and emergency management in the Netherlands and risk and crisis communication. The second term includes courses on business continuity management, security and ethics and crisis management in private organizations.

Study subjects As part of the programme you will be working on an individual assignment on an emergency management topic of your own choice. This will enhance your skills in analysing and solving problems in the field of emergency management. Assignments should focus on emergency management topics and may, amongst others, concern a comparative study of emergency management practices e.g.

Course objectives his semester should not be regarded as training for operational emergency activities. E.g. we do not train you how to fight a fire or how to carry out first aid. Career prospect can be found however on the strategic level, e.g. as: health, safety and environment (HSE) manager within a (large) company; policy maker at a governmental organisation involved in preparation for emergencies; strategic coordinator at an emergency service involved in emergency preparation and response.

ECTS credits 30.00

Duration 5 month(s)
full-time

About the institution

Department School of Governance, Law & Urban Development

Saxion University of Applied Sciences is one of the larger institutions of higher education in the Netherlands, with over 23,000 students (and still growing!). Saxion University has a rich history - its roots can be traced back to the 1875. A merger of two educational institutions, the Hogeschool Enschede and Hogeschool IJsselmeer, in 1998 paved the way for Saxion University in its present form. This merger enabled Saxion to build further on its strong position in Dutch higher education and since then Saxion University has come to be recognised as an important centre of expertise at regional, national and international level. We are very proud of our diverse student body. Our international student population tops 2,500 students with a total of 55 different nationalities. Many of Saxion's full-time educational courses are already conducted in English, with more being added each year. Our 'international classrooms' are made up of a mix of students from all over the world. In this way we provide you with a truly multi-cultural experience in which you can compare experiences with and learn from fellow students of different backgrounds and nationalities.

Professional experience required -

Duration 5 month(s)
full-time

Application **Start date EU/EEA Students Non-EU/EEA students**

deadlines 2 Sep 2019 17 Feb 2019 17 Feb 2019

Year EU/EEA Non-EU/EEA Institutional

No tuition fees available.

In short, the following rules apply:

- Tuition fees
- The "EU/EEA rate" is the regular fee for students from within the EU/EEA.
 - The "non-EU/EEA rate" is the rate for students from outside the EU/EEA.
 - The "institutional rate" is for all students who have already obtained a bachelor's or master's degree and who want to start a second programme leading to a degree at the same level or at a lower level.
 - Note that FT, PT and D stand for "full-time", "part-time" and "dual", respectively.

Make sure you contact your institution to find out what rate applies to you. The rates listed here are estimates.
