Course description

Qualification Bachelor of Science

Field of study Economics, commerce, management and accounting

Course summary Economics and Business Economics: a dynamic combination! Economics is the science of choice: it examines why specific alternatives are chosen by organisations, consumers and governmental institutions.

Course description Economists are indispensable to every government, every large corporation and every university around the world - even more so in today's volatile global context. Why do consumers buy a specific brand or product? How are prices set? How can we deal with unemployment? Why do free-market economies promote innovation better than planned economies? What causes variations in income between different ethnic groups? These are some of the questions that occupy economists. In this programme you focus on Economics and Business Economics: * Economics is all about the broader problems that concern governments, national and even international economies; for example, how do changes in legislation affect public interests like welfare and unemployment? * Business Economics analyses problems within companies and explores the possible solutions; you learn how to apply economic insights to manage businesses more effectively. Within this programme you can choose 4 specialisations: 1) Economics 2) Economics and Management of Information 3) International Business Economics 4) Emerging Markets Additionally, you are required to study or do an internship abroad, depending on your specialisation.

In the first year, you take compulsory courses with all Economics and Business Economics students, looking at finance, accounting, international economic relations, micro- and

Study subjects	macroeconomics, marketing and more. From this broad basis, you then choose a specialisation for your second and third years. Additionally, you are required to study or do an internship abroad in your third year, depending on your specialisation.

Professional experience required -

Duration 36 month(s)
full-time

	Start date	EU/EEA Students	Non-EU/EEA students
Application deadlines	1 Sep 2019	15 Mar 2019	15 Mar 2019
	1 Sep 2020	15 Mar 2020	15 Mar 2020

Year	EU/EEA	Non-EU/EEA	Institutional
2019 (FT)	€ 2083	€ 8000	€ 8000

In short, the following rules apply:

- Tuition fees
- The "EU/EEA rate" is the regular fee for students from within the EU/EEA.
 - The "non-EU/EEA rate" is the rate for students from outside the EU/EEA.
 - The "institutional rate" is for all students who have already obtained a bachelor's or master's degree and who want to start a second programme leading to a degree at the same level or at a lower level.
 - Note that FT, PT and D stand for "full-time", "part-time" and "dual", respectively.

Make sure you contact your institution to find out what rate applies to you. The rates listed here are estimates.
