Course description

Qualification Master of Science

Field of study Humanities, social sciences, communication and arts

Course summary The master program Geographical Information Management and Applications focuses on the management and application of geographical information from a scientific perspective.

Course description In Geographical Information Management and Applications (GIMA), students will be introduced to the theoretical, methodological, technological and organisational principles of processing and analyzing digital geo-information, the management and research aspects of geo-information, and the innovative application of geo-information in a wide variety of spatial application fields. Furthermore, GIMA is a blended learning Master's programme, which means that most of the time students are studying from the place where students think they can study best (e.g. at home, or the local library). Students study full time (2 yrs.) or part time (4 yrs.). A compulsory internship allows the student to gain practical experience in a (geo-information) working environment. The internship is carried out within geo-information companies, agencies and research institutes in the Netherlands or abroad. The student submits a report about the internship.

Study subjects The programme may be followed on a full time (2 years) or part time basis (4 years). The study programme comprises six course modules, an internship and a Master's thesis, which together will yield for 120 ECTS.

Course Students are educated to become all-round managers of Geo-information and / or all-round

objectives	Geo-information application specialists.
ECTS credits	120.00
Duration	24 month(s) full-time, part-time
Language of instruction	English
Instruction modes	case study, literature study, oral presentation, internship, computer exercise, research, research project, excursion, research proposal, tutorial, lecture, design project, working group, group assignment, portfolio, group discussion, self evaluation, individual assignment, self study, integration module, project
Accreditation	NVAO, NVAO

About the institution

Department	Faculty of Geosciences
Information about the institution	Commitment, inspiration, ambition and independence are Utrecht University's core values. The University fosters its academic community through investment in staff and students.

Admission

Admission requirements

	Cambridge Certificate in Advanced English	B1
	Cambridge Certificate of Proficiency in English	C1

	TOEFL internet based	93
	TOEFL paper based	580

Professional experience required

-

Duration
24 month(s)
full-time, part-time

Application deadlines	Start date EU/EEA Students Non-EU/EEA students	
	1 Sep 2019	1 Jun 2019
	1 Apr 2019	
	1 Sep 2020	1 Jun 2020
	1 Apr 2020	

Year EU/EEA Non-EU/EEA Institutional

No tuition fees available.

In short, the following rules apply:

- Tuition fees
- The "EU/EEA rate" is the regular fee for students from within the EU/EEA.
 - The "non-EU/EEA rate" is the rate for students from outside the EU/EEA.
 - The "institutional rate" is for all students who have already obtained a bachelor's or master's degree and who want to start a second programme leading to a degree at the same level or at a lower level.
 - Note that FT, PT and D stand for "full-time", "part-time" and "dual", respectively.

Make sure you contact your institution to find out what rate applies to you. The rates listed here are estimates.
