Course description

Qualification Certificate

Field of study General programmes

Course summary This course aims to lay a solid, diverse and integrated foundation for conducting first-rate qualitative and quantitative research, and for embedding it in effective and feasible mixed-method research

Course description At the end of this summer programme, students will have a good understanding of the most important principles and practices of social science research. They will also be able to improve their knowledge and skills independently after the course, and thus pursue their substantive research interests without methodological hindrance. This programme begins with the presentation and discussion of the most important qualitative methods for all students in the social and behavioural sciences. We then focus on the inferential possibilities and limitations of various research strategies, introducing students to the crucial issues of research design.

In short, the following rules apply:

Tuition fees

- The "EU/EEA rate" is the regular fee for students from within the EU/EEA.
- The "non-EU/EEA rate" is the rate for students from outside the EU/EEA.
- The "institutional rate" is for all students who have already obtained a bachelor's or master's degree and who want to start a second programme leading to a degree at the same level or at a lower level.
- Note that FT, PT and D stand for "full-time", "part-time" and "dual", respectively.

Make sure you contact your institution to find out what rate applies to you. The rates listed here are estimates.
