### Course description

Qualification Certificate

Field of study Health care, social services and care services

Course summary Explore groundbreaking research on neurodegenerative diseases in a global classroom setting. Apply your learnings through hands-on field visits to state-of-the-art laboratories.

Course description From molecules to brain, cells to behaviour, this interactive course provides students with comprehensive insight into various aspects of neurodegenerative diseases such as Alzheimer's and Parkinson's. It addresses both clinical aspects (etiology, pathology, genetics, diagnostics, and treatment) and methodologies for the study of brain diseases (cell and animal models, microscopy, physiology and electrophysiology, behaviour) with expert lecturers presenting their applied research. Students are challenged to deepen their knowledge of a neurodegenerative condition by working with peers from international backgrounds on an integrated, interdisciplinary project requiring active involvement, mechanistic thinking, and thorough reasoning. The course is organized by the Centre for Neurogenomics and Cognitive Research (CNCR), a centre of expertise at the Neuroscience Campus Amsterdam that conducts integrated research programmes on everything from genes to behaviour. Its staff are leaders in their fields, renowned for the use of state-of-the-art techniques. Visits to several state-of-the-art laboratories at the Neuroscience Campus Amsterdam are a special feature.

Study subjects -

Course objectives	-
ECTS credits	3.00
Duration	2 week(s) full-time
Language of instruction	English
Instruction modes	excursion, group discussion, group assignment, lecture, individual assignment, laboratory work, literature study, self study
Accreditation	-

## About the institution

Department	-
Information about the institution	Ever since it was founded in 1880, Vrije Universiteit Amsterdam has been known for its distinctive approach to knowledge. VU is an open organization, strongly linked to people and society.

## Admission

Admission requirements	
Language requirements	
Professional experience required	-
Duration	2 week(s) full-time
Application deadlines	<b>Start date EU/EEA Students Non-EU/EEA students</b> 6 Jul 2019 1 May 2019 -
	<b>Year EU/EEA Non-EU/EEA Institutional</b> 2019 (FT) € 1150 € 1150 € 1150
