### Course description

Qualification Master of Science

Field of study Humanities, social sciences, communication and arts

Course summary Communication, Health and Life Sciences in Wageningen trains academics who are able to understand, facilitate and drive societal change in complex settings related to life science or health issues.

Course description -

Study subjects In the Master Communication, Health and Life Sciences students learn to understand complex social problems around food, health and life sciences from various perspectives as well as to translate issues for diverse audiences and to build bridges across societal boundaries; between science and society, health and care and different professions.

Course objectives The programme aims to deliver academically equipped communication professionals who can integrate perspectives of scientists and/or groups in society. They are able to analyse, design and manage the role of communication in innovation processes within the domains of life sciences. Examples are nature, environment, water, nutrition and health, biotechnology and food production.

Start date	EU/EEA Students	Non-EU/EEA students
1 Sep 2020 -		1 May 2020
1 Sep 2021 -		1 May 2021

Year	EU/EEA	Non-EU/EEA	Institutional
2020 (FT)	€ 2143	€ 18700	€ 13250

In short, the following rules apply:

Tuition fees

- The "EU/EEA rate" is the regular fee for students from within the EU/EEA.
- The "non-EU/EEA rate" is the rate for students from outside the EU/EEA.
- The "institutional rate" is for all students who have already obtained a bachelor's or master's degree and who want to start a second programme leading to a degree at the same level or at a lower level.
- Note that FT, PT and D stand for "full-time", "part-time" and "dual", respectively.

Make sure you contact your institution to find out what rate applies to you. The rates listed here are estimates.
